[Our Story So Far]
Even if we were the last two people on earth, you, Kurumi, would still never have sex with me, Hideo. No matter how much I cried and begged for it, you would never let me ejaculate. And I'm not allowed to masturbate without your permission. ...That's when I put on the collar of rules that bears your name. And this is the tale of helpless me and you who stops me.

Roman Club: Founded by school alumni now active in all facets of the country's politics and economics, the club seeks out all things "romantic"...but to put it bluntly, it's an occult club. But for those members who uphold the rule of remaining a virgin until school graduation, the alumni supply numerous recommendations and back-ups for getting into college and high-paying careers. However, due to the rumored "assassin," six years have passed without a single successfully graduating member...
